

## SPECIFICATION FOR 32 DRUM FULLY ENCLOSED SECURE STORAGE

	1840/DPU32-8
<b>Size</b>	592 x 150 x 329.5 cm
<b>Stores</b>	32 x 205 litre drums or 8 x 1000 litre IBCs
<b>Sump Capacity</b>	2200 litres
<b>Shelf Space</b>	135 cm
<b>Colour</b>	Green RAL 6029
<b>Tare weight</b>	1970 kg

**Description:**

The base of this bundled store is manufactured from 3mm mild steel sheet with RHS cross members and pressed ribs.

The corner posts, shelf frames and main rails are all made from rolled hollow section.

The back, sides and door are pressed from 2mm mild steel sheet (corrugated as required for additional strength) while the roof is pressed with suitable bracing).

The store is welded around the perimeter (sump fully seam welded), fitted with crane lifting points (maximum 2000 kilos per lift point), double sliding doors and the unit is shot blasted before being painted.

Note: The “floor” area above the sump is covered with galvanised steel channel sections so that loose drums or pallets can be stored directly on to it, while the upper shelf is an open, box section construction designed to support pallets. Grid mesh shelving is available for the upper shelf as a chargeable option for those who wish to have it fitted with a full “floor”.

**Note:**

All weights, dimensions, and other figures quoted are approximate.
