**Instructions for Use:** It is important that a suitable and sufficient Risk Assessment is carried out on each incident and correct PPE is worn. Depending on the nature of the spill a combination of the contents may be used to pick it up. The scraper and scoop may be used to apply and pick up the loose absorbent.

**Compatibility:** The contents of this kit may be safely used with all aqueous solutions and liquids immiscible with water, such as hydrocarbons, solvents, mineral oils, **with the exception of strong oxidising agents.**

Before any use in a spill situation a proper risk assessment should be carried out and all hazardous properties of the liquid or dangerous reactions taken into account.

**Disposal:** Used sorbents may be disposed of by landfill or incineration, in accordance with local and national regulations, taking into account the classification of the liquid absorbed.

**Safety Data: (Sorbents)** Refer to our Material safety Data Sheet.  
This product is non-toxic to users and to aquatic life.  
Further technical advice is available if required.
