

## EnviroPad 5.0

### Product Summary

	0411/PSP/S6	0411/PSP/M15	0411/PSP/L31	0411/PSP/XL50	0411/PSP/XXL80
<b>Size</b>	610 x 460 mm	900 x 690 mm	1370 x 910 mm	1370 x 1370 mm	2180 x 1370 mm
<b>Pack Quantity</b>	1	1	1	1	1
<b>Pack Wt (gross)</b>	0.9kg	1.9kg	3.55kg	5.3kg	8kg
<b>Sorbency</b>	Up to 6L	Up to 15L	Up to 31L	Up to 50L	Up to 80L

**Description:** Usage instructions printed on the EnviroPad.  
 Only product that locks in spills after they've been absorbed.  
 No leak or overflow risk.  
 Locks in HVO and other bio alternatives.  
 Huge capacity and minimal waste for very low cost of ownership.  
 Cleaner and easier to use for workers.  
 Lightweight and compact size for ease of transportation and storage.

**Composition:** Inner: A blend of innovative smart polymers to capture and retain hydrocarbons  
 Outer: Geotextile

**How They Work:** The polymer blend works by having a physical attraction with hydrocarbons. On contact, the viscosity increases creating a solid rubber-like substance that will not leak, even under pressure. Once the polymers are activated by contact with hydrocarbon, the oil is locked in permanently and cannot be released.

**Disposal:** EnviroPads contaminated with hydrocarbons must be treated as hazardous waste and be disposed of according to current regulations.

**Safety Data:** Low weights ensure safe handling in accordance with manual handling guidelines. Further technical advice is available if required.

**Note:** All weights, dimensions and other figures quoted are approximate.
