

### Product Summary

	001/STARTER
<b>Container Size</b>	74 x 58 x 110 cm
<b>Container Volume</b>	240 litres
<b>Container Colour</b>	Blue
<b>Pack Wt (gross)</b>	68.4 kg
<b>Sorbency*</b>	150 – 300 litres

Oil Gator Recycling Centres are designed to be used in conjunction with Oil Gator hydrocarbon absorbent.

Primarily designed for industrial use, the Oil Gator Recycling Centre allows the optimum use of Oil Gator absorbent and will radically reduce the amount of absorbed waste for disposal.

Portable, simple to use even simpler to maintain, the Recycling Centres are fully self-contained to deal with a spill at the point of occurrence.

*\*Sorbency: Lower figure test method to BS 7959-1:2004 using SAE10W40 motor oil. Higher figure based on high viscosity liquid with no drain.*

**Container:** UV stabilised container with internal sieve, bottom dispensing port and two wheels. Fully opening lid allows for ease of access to contents.

**Contents:**

- 6 Tubs Oil Gator 20 litre
- 1 Broom
- 1 Shovel
- 1 Sieve

**Replenishment:** Tubs of Oil Gator can be ordered separately. Please use code 001/RM/OG.

**Instructions for use:** It is important that a suitable and sufficient Risk Assessment is carried out on each incident and correct PPE is worn. Depending on the nature of the spill a combination of the contents of the kit may be used.

**Compatibility (Oil Gator):** May be safely used with all aqueous solutions and liquids immiscible with water, such as hydrocarbons, solvents, mineral oils, *with the exception of strong oxidising agents and strong alkalis.* Before any use in a spill situation a proper risk assessment should be carried out and all hazardous properties of the liquid or dangerous reactions taken into account.

**Disposal:** Used sorbents may be disposed of by landfill or incineration, in accordance with local and national regulations, taking into account the classification of the liquid absorbed.

**Safety Data:** Further technical advice is available if required.

**Note:** All weights, dimensions, and other figures quoted are approximate.
