

Under Rack Bund

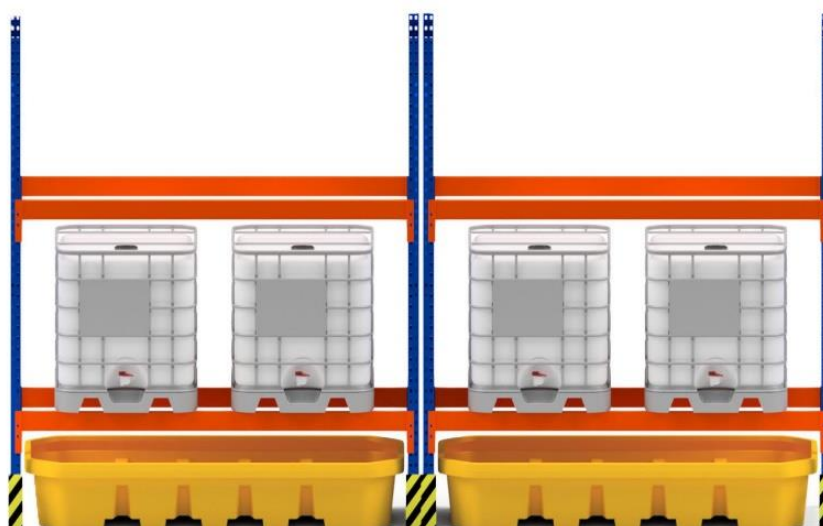

Product Summary

	1840/UR22/Y
Size	216 x 130 x 57 cm
Capacity	1100 litre sump capacity
Colour	Yellow
Pack Quantity	1
Pack Weight (gross)	30 kg
Material	100% Recyclable PE

A spill containment for pallet racking designed to turn regular racking into a safer bunded storage solution. Ideal for preventing uncontrolled spread and substance mixing and protecting racking structure and machinery from chemical damage.

- UV resistant
- Chemical resistant
- Nestable ranges
- Tested for weight and hydrostatic loads
- ISO 9001:2015 and ISO 14001:2015 Quality Standards
- DIBT Approved
- Versatile and economical
- Low bund height for use under pallet rack beams
- Designed to fit within 2200mm pallet racking trays
- Easy access (no platform) for cleaning and visibility of spills
- Compatible with most forklifts and pallet trucks
- Nestable design saves storage space and optimises handling and delivery
- 100% full recyclable, UV stable PE, compatible with most chemicals
- Highly durable and resistant to scuffing/knocks.
