

Drizit SpillCoir

Product Summary

	0398/COIR/BAG
Pack Size	51 (L) x 15 (W) x 61 (H) cm
Pack Quantity	1
Pack Wt (gross)	13.6 Kg
Pack Size	1
Sorbency (pack)	56 – 68 litres
Colour	Brown
Pack Type	LDPE Bag

Sorbency: Lower figure test method to BS 7959-1:2004 using SAE10W40 motor oil. Higher figure based on high viscosity liquid with no drain. SpillCoir also has reasonable absorbency for water and mild chemical solutions.

Description:	Drizit SpillCoir is an industrial organic absorbent for liquid spill control. Made from 100% natural ingredients. Absorbs 3.5x its own weight and 5x more than clay absorbents. Sustainable and eco-friendly.
Composition:	90 – 95% Coir (coco) pith, 5 – 10% H ₂ O.
Appearance:	Brown natural organic substance.
Compatibility:	May be safely used with non-aggressive aqueous solutions and liquids immiscible with water, such as hydrocarbons, solvents and mineral oils. Before any use in a spill situation, a proper risk assessment should be carried out and all hazardous properties of the liquid or dangerous reactions taken into account.
Fire Resistance:	Non-flammable. No known explosion hazard.
Storage:	Store in cool, dry and ventilated area and away from food stuffs.
Disposal:	After use, waste materials should be disposed in accordance with local and national regulations.
Safety Data:	Refer to our Safety Data Sheet. Further technical advice is available if required.
Note:	All weights, dimensions and other figures quoted are approximate.
